## Senior Plumbing/Fire Protection Engineer

Cosentini Associates ([www.cosentini.com](http://www.cosentini.com)), a Tetra Tech company, invites you to consider an exciting opportunity within our New York City office. We are seeking an innovative and assertive **Senior Plumbing/Fire Protection Engineer** to join our renowned design team to both lead design teams and manage a portfolio of projects.

### About this opportunity:

As a **Senior Plumbing/Fire Protection Engineer** at Cosentini, you will have the opportunity to apply your design expertise on exciting and challenging national and international projects. You will have the chance to mentor and impart knowledge to junior engineers and designers. At the same time, you will be working with some of the top engineers in the field, gaining additional expertise and building your reputation and career.

### What's so great about this job?

This is a terrific opportunity to perform innovative plumbing and fire protection design on complex, challenging projects in the US and internationally. We are also working on "green" design of buildings such that, through sustainable design, they have the potential to generate more energy than they consume. This unique position offers career challenge, advancement opportunities, and provides access to a market-leading compensation and benefits package.

### What kind of candidate are we looking for?

We are seeking a talented and highly motivated engineer with a B.S. in Mechanical Engineering with 10+ years of plumbing and fire protection design and management experience is highly desired. Extensive high rise residential, hotel and office building experience is a must. PE preferred. Project and client relationship management experience is highly desired. To be successful, candidate must have excellent technical skills, communication and interpersonal skills, and business acumen.

### Why join Cosentini?

Cosentini Associates provides the following engineering services: HVAC, Electrical Power, Fire Protection, Plumbing, Energy Conservation and Sustainable Design, Code Consulting and Construction Administration Services. We have a reputation for innovative design in the global design and construction industry. As part of the Tetra Tech family, we are a leading provider of consulting, engineering, and technical services worldwide. We are a diverse company, including individuals with expertise in science, research, engineering, construction, and information technology. Our strength is in collectively providing integrated services—delivering the best solutions to meet our clients' needs. With more than 14,000 employees worldwide, 350 offices worldwide and 2.75 Billion revenue in FY 2012, Tetra Tech's capabilities span the entire project cycle.

Cosentini Associates/Tetra Tech is an equal opportunity employer. We invite resumes from all interested parties including, women, minorities, veterans, and persons with disabilities.
